DETAILED ACTION

Applicant's amendment to claims filed on 05/04/2006 is duly acknowledged.

Claims 1-14 as amended are currently pending in this application.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-10, drawn to **a method for detecting the presence of biofilm-forming microorganisms**, as specifically recited in claim 1.

Group II, claim(s) 11-13, drawn to **an assembly kit (taken as a device) for detecting the presence of biofilm-forming microorganisms**, as specifically recited in claim 11.

Group III, claim(s) 14, drawn to **the use of the detection method of claim 1 or of claim 12 (for restriction purposes, taken as a method for screening anti-biofilm agents**, as it uses the device of group II) as specifically recited in claim 14.

The inventions listed as Groups I through III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The inventions of groups I through III as claimed lack the special technical features as the method for detecting the presence of biofilm-forming microorganisms as specifically recited in the method steps a) through d) of claim 1 has been fully disclosed

in the PRIOR ART (see cited prior art of record; IDS; Schapira et al, US 5,349,874 A; issued on September 27, 1994; see example and claims in particular).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SATYENDRA K. SINGH whose telephone number is (571)272-8790. The examiner can normally be reached on 9-5MF.
